

Premium Bone China, In-Flight Tableware & Hospitality Ceramics Manufacturer

Global OEM/ODM Partner

Third-Generation Bone China

Antibacterial , easy-to-clean, superior wear resistance, acid & alkali corrosion resistance,
Dishwasher safe

Our Phase I facility covers 54,449 m² and produces 10 million pieces of premium bone china annually. Around 50% is exported to high-end European and American, Middle East and other markets.

We supply over 2,000 supermarkets worldwide and carry a wide range of best-selling products.

We run an 890 m² innovation hub with sustained R&D investment, exclusive refining processes and proprietary third-gen functional bone china technology that surpasses national standards; all work from raw material, formular, shaping, decal printing and packaging is handled in-house, enabling us to deliver full custom manufacturing solutions for global clients.

With over 300 proprietary IP products, our designs integrate oriental cultural aesthetics with international fashion. We realize standardized, intelligent and quality-traceable full-process production, and apply digital management, effectively guaranteeing stable capacity and strict quality control for global supply.

Our garden-style green factory balances efficiency and ecological responsibility. Our products are sold in the US, the Middle East, Europe and other global markets, striving to become a world-leading daily-use ceramics enterprise.

Raw Materials

Natural rare earth materials,
exclusive formula,
7-filter & 5-sieve process for ultimate purity

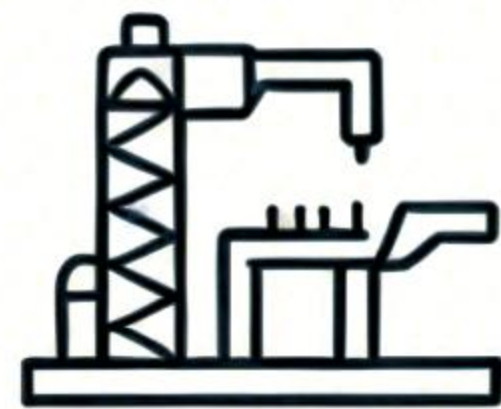

The image shows a vast industrial interior, possibly a bone processing plant. In the foreground and middle ground, there are many large, white, circular, bowl-like structures arranged in rows. These structures are likely used for processing bone. The background shows a complex network of pipes and structural elements, with some blue caps visible on the pipes. The lighting is dim, creating a somber and industrial atmosphere.

World's Leading Base for 3rd-Gen Bone China
